137 teams

How Does it Work?

For Under 10s (U10) in the Tandridge Youth Football League, the ladder system governs how their 7v7 mini-soccer matches are structured. Since The FA strictly mandates that under-10 football must focus on player development rather than public league tables, the ladder acts as a fluid grading mechanism.

1. **The Dynamic Phase Structure:** Instead of a fixed division for the whole year, the season is typically broken into distinct phases: The Seeding/Ladder Phase (Autumn): When the season starts, teams are placed on a structural "ladder." Every time a team wins, loses, or draws, the league's algorithm or fixture secretary adjusts their position. If a team wins comfortably, they move up a rung to play stronger opposition. If they lose heavily, they move down to play teams of a similar standard.
2. **The Final Grouping Phase (Spring):** Once the teams have found their natural competitive level on the ladder, they are locked into balanced, final divisions for the second half of the season. These often culminate in non-published seasonal formats like the "Spring Plate" or developmental trophy events.
3. **Match Rules & Submissions:** Even though public league tables are hidden to remove pressure from the children, the league heavily monitors scores behind the scenes to keep the ladder accurate.
4. **Feature U10 Ladder Rule Requirement:**
 - Match Format 7v7: (maximum squad size of 14 registered players).
 - Match Duration: Up to 60 minutes total (usually 25 minutes each way with a 5-minute break).
 - Pitch & Goals: 60 x 40 yard pitch with 12 x 6 foot goals.
 - Result Deadline Scores: must be submitted via the Electronic Match Card on the Tandridge App by 6:00 PM on the Sunday of the match to recalculate the ladder rungs.
 - Fair Play and Equal Time: Because it is a developmental ladder, managers are expected to focus on development rather than "winning at all costs" to move up. The league recommends that all team members receive at least 50% playing time per game.
